Education

All India Shri Shivaji Memorial Society IOIT <i>B.TECH. in Computer Engineering</i>	Aug. 2023 - Expected Jun. 2027 7.27 CGPA
HPT Arts and RYK Science Junior College <i>HSC (Class XII)</i>	June 2022 - May 2023 65.67%
Marath High School <i>SSC (Class X)</i>	June 2020 - May 2021 90.60%

Projects

Disease Prediction System Python, Machine Learning, Flask	Feb. 2024
---	-----------

- Developed a disease prediction model using ML algorithms (Decision Tree, Random Forest, Naive Bayes) trained on medical datasets.
- Implemented a Flask-based web interface for users to input symptoms and receive real-time disease predictions.

Grocery Store App Flutter/Kotlin	April 2025
------------------------------------	------------

- Mobile app idea for grocery shopping, enabling users to browse products, add to cart, make payments, and track delivery.
 - Aimed at building a Flipkart-like shopping experience optimized for local shops.
- Skills and Proficiencies

Languages: C | C++ | HTML | CSS | JavaScript

Concepts: DSA | OOP

Frontend: React.js | Tailwind CSS

Backend: Node.js | Express.js

Tools/Platforms: Git | GitHub | Postman | VS Code | Figma | Photoshop

Achievements and Experiences

- **Active member** of a team which qualified internal hackathon for **Smart India Hackathon Finals**.
- Completed a **2-month UI/UX design internship at Forztek Solutions**, focusing on creating responsive and user-centric interfaces using Figma.

Positions of Responsibility

CESA <i>Documentation Secretary</i>	June 2025 – Present
--	---------------------

- Preparing and maintaining official documentation, reports, and event records to ensure smooth communication and transparency.
